Mery Crystal Ra

Artist Meeli Koiva -Mery Crystal Ra

website: www.merycrystalra.com

Meeli Koiva, who also uses artist name Mery Crystal Ra, is a glass and lighting artist and painter. She has been examining the possibilities of combining glass and light to extraordinary pieces of artwork already over 25 years, thus being a pioneer in the area. She has created her highly innovative work of art in the Europe and in the USA for private residences and public buildings.

Her last years most famous innovative glass-light sculptures were created for European Parliament main building exhibition in Brussels, Belgium 2006 and Glaston Corporation headquarters in Tampere, Finland 2009.

The philosophy of Meeli Koiva's work is constantly changing glass environment via innovative glass and light art. Luminosity, spontaneity and motion are qualities that immediately come to mind when viewing the abstract work of Meeli Koiva. The components of water, shadow, reflections and light are integral to Koiva's works. Profound sense of freedom, flexibility and depth.

Meeli Koiva's glass sculptures often create the illusion that the space around them is constantly transforming. This impression is achieved thanks to her vigorous use of innovative materials and technologies. Keeping up-to-date with the research results in the glass industry gives a fresh feel and new sensitivity to her sculptures. The artist's masterful use of the interplay of graphics and color gives a result with a unique handwriting.

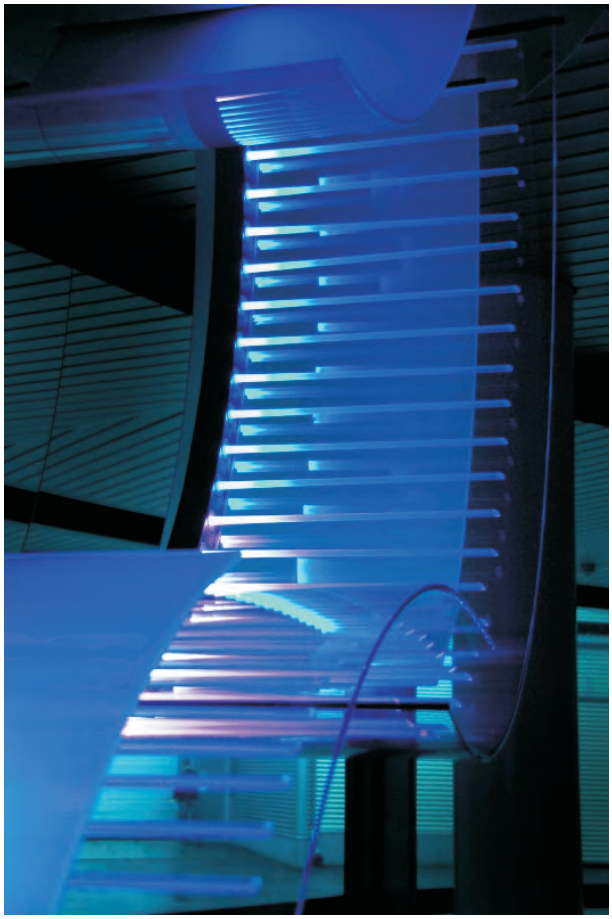

The light feeling of Meeli Koiva's works is achieved by long testing and experimenting. Meeli Koiva's glass and light sculptures are born through every-day cooperation with the world's leading glass producers and lighting companies, with scientists and engineers.

Meeli Koiva has earned a reputation as one of the leading glass-light innovators, widely acclaimed for her unique graphic, line quality and use of color.
